Overview of OutErra

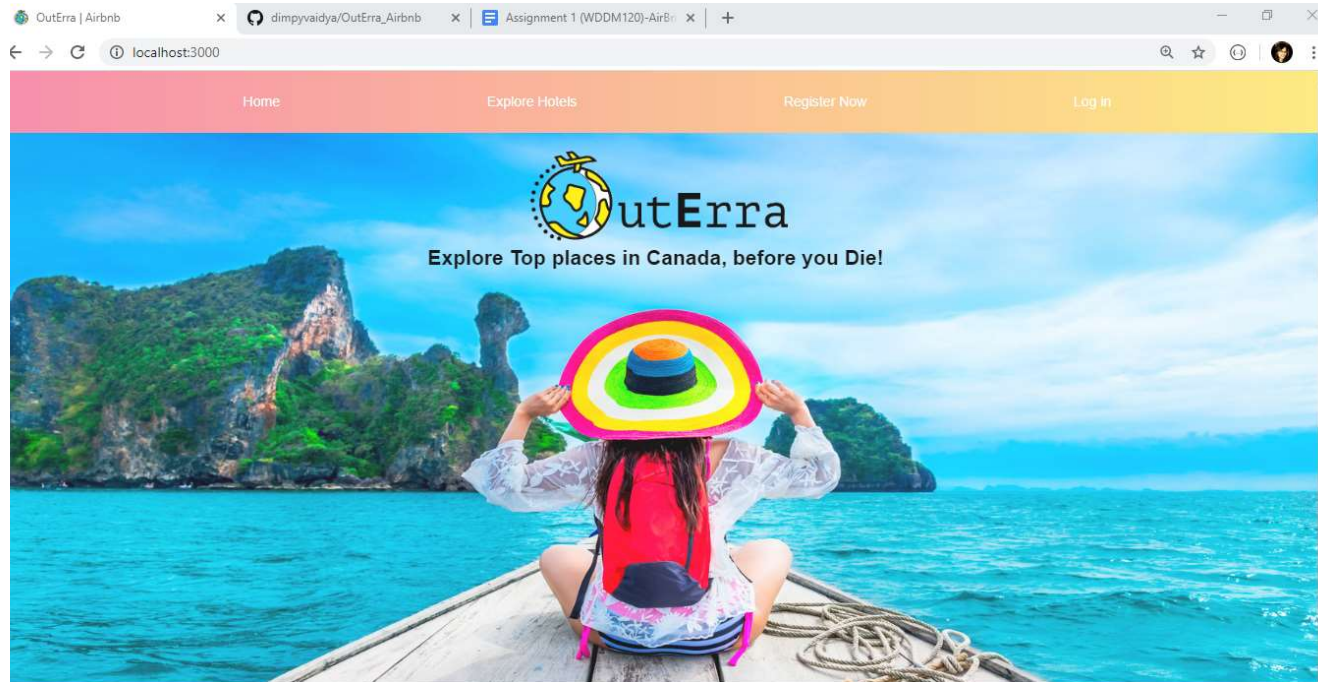

- **OutErra Application** is a travel website that allows people to book rooms around the world.
- **Users can register with OutErra and they will receive a text message that they have been registered with OutErra with the given E-mail address as well as from then onwards they will receive promotional offers messages on the entered phone number.**
- **User can login to book the rooms, as well.**
- **Plethora of hotel rooms are displayed with users feedback and ratings.**
- **Hotel booking preference block is provided to users to select the room as per their requirement.**
- **Various validations are also applied on Registration and Login page.**

TEXT MESSAGE FROM OUTERRA

Login tab

A screenshot of a web browser showing the login page at `localhost:3000/login`. The browser's address bar and navigation icons are visible at the top. Below the address bar is a horizontal navigation bar with a gradient from pink to yellow, containing links: Home, Explore Hotels, Register Now, and Log In. The main content area is white and contains a 'Login' section. This section has a title 'Login', followed by two input fields: 'Username' with the placeholder 'Enter Username' and 'Password' with the placeholder 'Enter Password'. Below these fields are two buttons: a green 'Login' button and a red 'Cancel' button. At the bottom of the login section, there is a link: 'Don't have an account? [Sign Up](#)'. Below the login section is a large blue banner with a light blue gradient. In the center of the banner are six social media icons (Facebook, Instagram, Snapchat, Twitter, WhatsApp, and LinkedIn) arranged in a 2x3 grid. At the bottom of the banner, there is a small copyright notice: '© 2020 Outerra.com, LP. All rights reserved. Outerra.com and the Outerra.com logo are trademarks or registered trademarks of Outerra.com, LP in the Canada and/or other countries. All other trademarks are property of their respective owners.'

Validations

Login page : blank field validation

A screenshot of a web browser showing the login page at `localhost:3000/sendMessageLogin`. The browser's address bar and navigation icons are visible at the top. Below the address bar is a horizontal navigation bar with a gradient from pink to yellow, containing links: Home, Explore Hotels, Register Now, and Log In. The main content area is white and contains a 'Login' section. This section has a title 'Login', followed by two input fields: 'Username' with the placeholder 'Enter Username' and 'Password' with the placeholder 'Enter Password'. Below these fields are two buttons: a green 'Login' button and a red 'Cancel' button. At the bottom of the login section, there is a link: 'Don't have an account? [Sign Up](#)'. Above the login section, there are two red error messages: 'Please enter your Username' and 'Please enter your Password'. The login page is otherwise identical to the previous screenshot.

Registration page,

- Phone number must contain digits, and
- Password and confirm password must match validations applied, along with
- All field blank field

In the above screenshot, user has entered some **random text in Phone number** field and the password length also varies, hence the **password also doesn't match with confirm password**. Therefore, the user will get the following error message.

localhost:3000/sendMessage

Home Explore Hotels Register Now Log in

Please enter your valid 10-digit Phone Number

Your password and confirm password must match!

If the user does not fill any field and press sign-up button, then the user will see the **message to fill the empty fields, as shown below**
